In his address to the students Shashanth N M “I started my education from my village and then moved to small town and did my class 12th from Channarayapatna followed by B.SC Degree from College in Hassan.

These are difficult times so take care of yourself. The country is going through difficult times and also in economy. You being the brightest minds in the country need to plan and make a difference to the nation after completing the education. You need to do something different, invention or may be research or go for some startup in the times to come. You need to have a big vision for the Nation, for your town, your village. You need to think about the humanity as a whole.

Though you have reached esteemed institution but there is a big world ahead and the nation and the countrymen have lot of expectation from you as you are the fortunate ones to get educated.

I cleared other competitive exams I wanted to go in to IAS so, way you too need to fix your goals. You need to manage your time, I too even with my job I prepared for my UPSC and was able to achieve my aim. Yes, you need to make sacrifices for your goals, please do it. In last four years I have missed lot of my family functions and friends' get-togethers, all for my Goal.
