A field visit to the Vignatham Ustav 2025

On Feb 19th, 2025, A field visit to the Vignatham Ustav 2025 from the Department of Physics, sounds like a great opportunity! around 45 Students actively participated in this Vignatham Ustav is likely a scientific or educational festival or event, possibly centered around physics, technology, or innovation. It could involve exhibits, workshops, lectures, and hands-on experiences related to various fields of physics and scientific advancements.

Our Students understanding and learned the **Applications of Physics**: Look for sessions or discussions on how physics principles are applied in various industries—whether it's space exploration, medical technologies, or sustainable energy solutions. If this Vignatham ustav 2025 has a community outreach aspect, there may be activities focused on making physics accessible to students or the general public. This can be a chance to inspire and mentor younger generations or curious minds.
