Report on Special lecture on “Basic & Principles of Analog and Digital Electronics”

09-04-2025

The special lecture programme is exclusively arranged for the BSc., Physics students to know the importance of on “Basic & Principles of Analog and Digital Electronics ”9th April 2025. Mrs. Arpitha H.J., Assistant Professor and Head of the department of Physics welcomed the gathering and addressed a brief of the topic. Mrs Divyamani M.P. delivered a talk on “Basic & Principles of Analog and Digital Electronics”

Electronics is the branch of physics and engineering that deals with the **flow of electrons** through devices like resistors, capacitors, transistors, and integrated circuits to perform various tasks like amplification, computation, or communication.

Mrs Divyamani M P, Assistant Professor Department of Electroincs, Government science college (autonomous) Hassan. She discussed & focuses on the design and use of **electronic components** and systems to control electrical energy in useful ways. Electronics is everywhere — from smartphones, laptops, and TVs to cars, medical devices, and space technology. It has transformed the way we live, communicate, and solve problems.

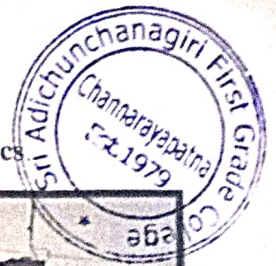

In the program Dr.Manjunath M.K ,Principal gave the presidential talk about the topic. Finally. Poomima A.G delivered the vote of thanks of the program. and also anchoring by our student chandanashree.
