**Date:28-04-2025**

**Circular**

The Department of Zoology is pleased to announce an educational trip to the Planet Earth Aquarium, Mysuru for I and II B.Sc Students on 2<sup>nd</sup> May 2025 at 6.30 am. This visit aims to provide students with experience of aquatic biodiversity and conservation efforts.

**Instructions:**

- Interested students must register their names with the Department of Zoology
- Parental consent is mandatory for participation.
- Students must carry their ID cards and follow the dress code and discipline guidelines.
- A briefing session will be held on 29<sup>th</sup> April 2025 to explain the trip and guidelines.

This is a valuable opportunity to enhance your practical understanding of life forms. We encourage maximum participation.

## Report on Education trip to Mysuru on 02/05/2025

On 2nd May 2025, the Department of Zoology organized an educational trip for I and II B. students to enhance their practical knowledge in zoological sciences. The trip included a visit to major learning centers in Mysuru-Planet Earth Aquarium and the Department of studies in Zoology, University of Mysore. This field visit was designed to complement academic learning with real-world exposure to animal biodiversity, research infrastructure, and conservation education. The visit commenced at 7:00 AM, under the guidance and coordination of Dr. Nirupama M and Radhamma K M.

### Main Objectives of the Visit

- To expose students to diverse aquatic organisms and their ecological classifications.
- To understand the conservation and care of aquatic life in controlled environments.
- To familiarize students with university-level research and academic infrastructure.
- To motivate students toward higher studies and research in the field of zoology.

At 11 am students visited the Department of Zoology at UOM, where they were received by senior faculty members. The visit included:

- A guided tour of laboratory facilities drosophila stock centre, animal house and other labs.
- Observing preserved specimens and study materials in the zoological museum
- Interaction with post-graduate students and researchers

The faculty emphasized the importance of skill development, interdisciplinary learning, and academic research. Students gained first-hand exposure to advanced laboratory techniques and equipment.

The students then visited to Planet Earth Aquarium provided a comprehensive look into aquatic biodiversity. Students observed a variety of freshwater and marine species, including exotic and native fish, amphibians, turtles, crustaceans, and coral displays. Mr Pradeep, Manger, Plant earth aquarium explained about Taxonomic classification and identification of species, Habitat simulation in artificial tanks, Feeding, breeding, and conservation techniques, Aquarium maintenance and water quality management and also organize a pet show where they show handling of snakes, rabbit, different birds etc. Aquarium staff conducted an interactive session, allowing students to ask questions and engage with real-time management practices. All 27 students participated actively and showed keen interest throughout the trip. The trip significantly enriched the students' academic experience by bridging theoretical knowledge with practical observation. It also fostered academic curiosity and encouraged students to explore research-based learning.
