Report on Special Lecture Programme on Partial Derivatives

Department of Mathematics organised a special lecture programme on “Partial Derivatives” on 09-05-2025 at Room No.204. In the beginning the invocation song has been sung by Ganavi, 1st B.sc. Soon after the invocation Ms.Chanadanashree, II B.sc, welcomed the chief guest and the dignitaries on the stage. After that the programme has been inaugurated at 12.00 PM, through watering plant as a symbol of growth of hopes and dreams in future.

The chief guest of this program, Prof. Yogesh.M.K , Spoke About the topic on the Partial Derivatives. A special lecture program on partial derivatives would likely cover the fundamentals of differentiating functions of multiple variables. It would focus on how to find partial derivatives, understand their meaning, and apply them in various contexts like finding gradients, calculating directional derivatives, and solving optimization problems.

Here's a possible outline for such a program:

1. Introduction to Partial Derivatives:

- Defining partial derivatives.
- Notation.
- Geometric Representation.

2. Applications of Partial Derivatives:

- Gradients.
- Partial Differential Equations.
- Jacobians.
- Implicit differentiation.
- Optimization Problems.

The organizer of the program and the head of the Department of Mathematics, Kavya H.I, spoke about the program to the students.

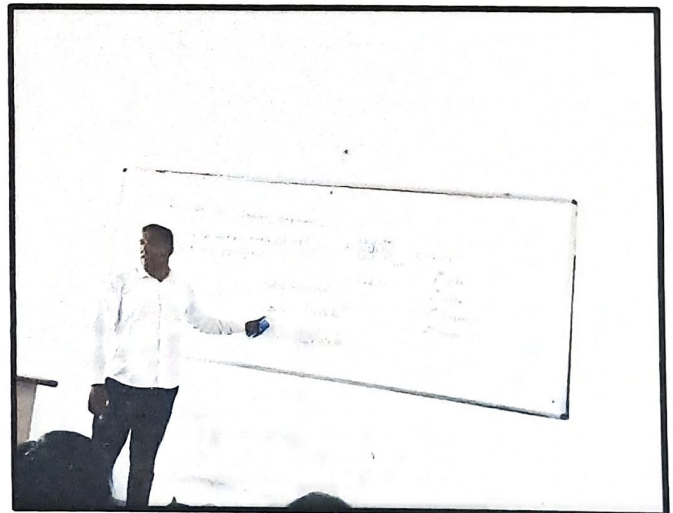

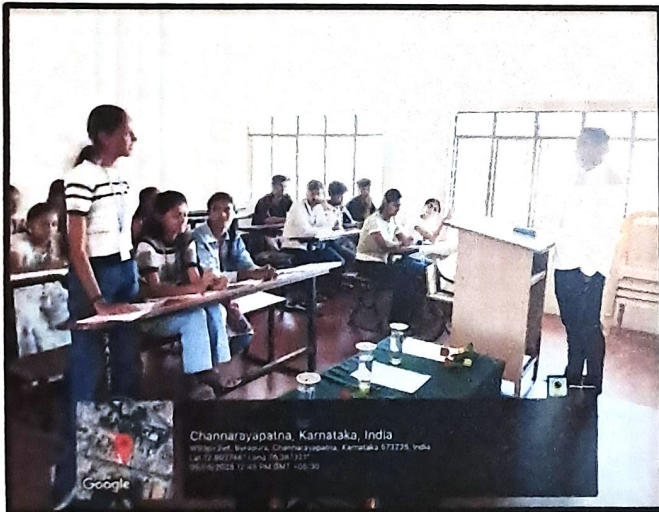

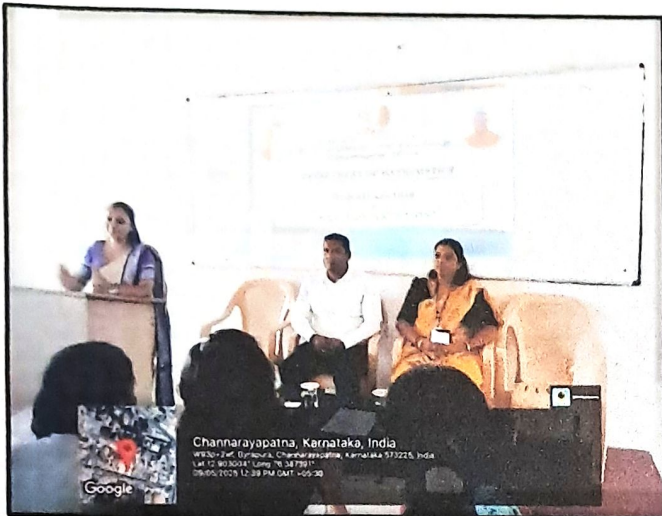

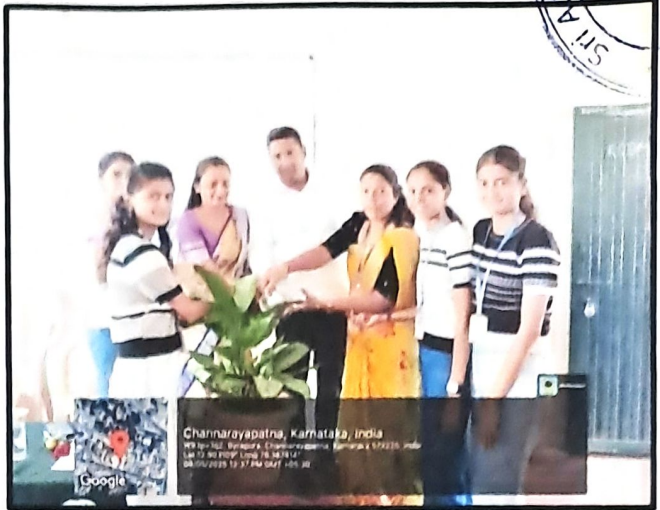

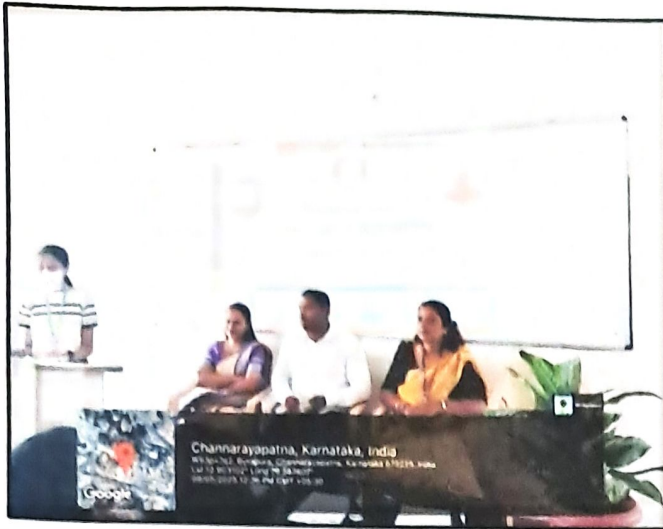

Finally its concluded expressing vote of thanks by Ms. Preethi Rajpurohith,II B.sc student to the participants guests , faculty members, from various departments and students.
