Circular - 2022-23

This is for the information of all the faculty, staff and students that the Department of Chemistry is organizing a special lecture programme on “World Soil Day - 2022 - Save Soil” to the Commerce and Humanities subject in collaboration with IQAC on December 5th, 2022. This will be a good interdisciplinary knowledge sharing platform for all the students.

REPORT ON "WORLD SOIL DAY - 2022 - SAVE SOIL"

Date: 05/12/2022

Time: 11.00 am

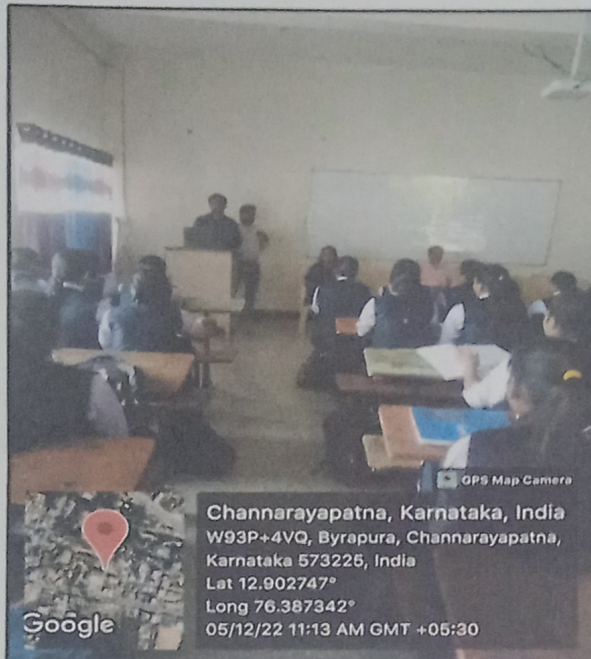

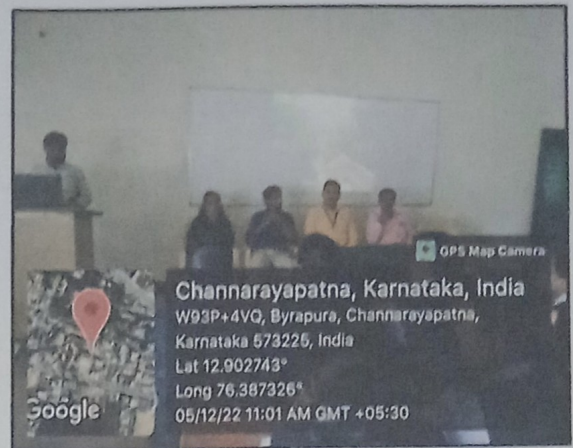

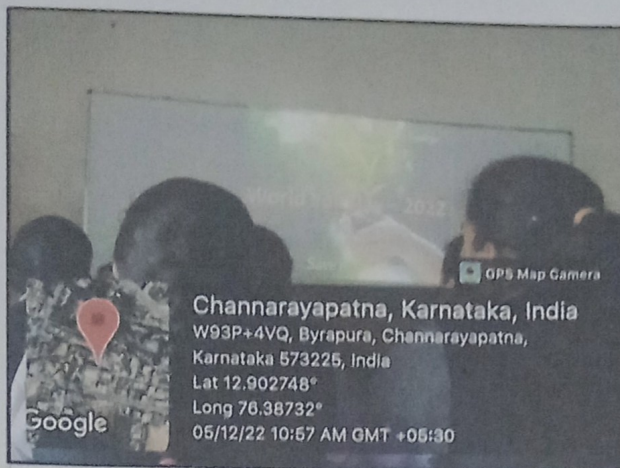

Venue: Seminar Hall - 307

The Department of Chemistry organized a special lecture programme for the first Year B.Sc and B.Com Students on the eve of world soil day. The programme was chaired by Dr.M.K.Manjunath, Principal, Dr.B.N.Chandrashekar, IQAC Coordinator, Dr.N. Shankaresh, Associate Professor, Department of Chemistry, Miss.Apporva, Assistant Professor, AVK College, Hassan and Mr.Chethan, Assistant Professor, Department of Geography. Dr.N. Shankaresh, Associate Professor, Department of Chemistry addressed the students and mentioned that importance of soil as a critical component of the natural system and as a vital contributor to human well-being.

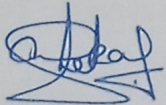

Dr.B.N.Chandrashekar, Assistant Professor, Department of Chemistry and IQAC co-ordinator, addressed the gathering to focus attention on the importance of healthy soil and to advocate for the sustainable management of soil resources. Dr.B.N.Chandrashekar mentioned that a whopping 95 percent of the food we eat directly or indirectly comes from our soils, which should have the extraordinary capacity to store, transform, and recycle nutrients that we all need to survive, allowing life to continue. Of the essential 18 nutrients to plants, 15 nutrients are supplied by soils - if they are healthy. However, about one third of soils worldwide are already degraded, and the loss of soil fertility means that land is less productive and many cereals, vegetables and fruits are not as rich in vitamins and nutrients as they were 70 years ago. In continuation with his words he expressed doubt in future food productivity if soil pollution continues. He also explained to the students regarding the soil structure and its characteristics, soil conservation method through power point presentation.

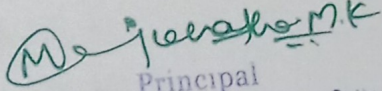

Miss. Apoorva, Assistant Professor, Department of Chemistry, AVK College, Hassan stressed upon the importance of 'healthy soil for a healthy life'. She highlighted the responsibility of the institute's activities and importance of balanced nutrition in enhancing soil organic carbon for better soil health

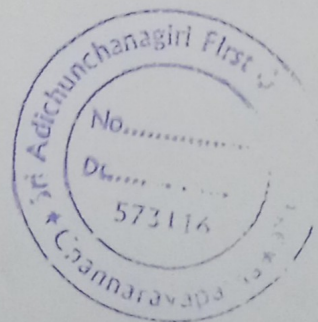

Dr.Manjunath, Principal, addressing the students, he emphasized on soil health students should have responsibility to educate the society to use the updated fertilizers such as neem coated urea to increase fertilizer use efficiency. He spoke about soil conservation and said that the Sri Sri Sri Balagnagadharanatha Swamiji had given lakhs of saplings to the farmers to prevent pollution. Mr. D.S.Chethan, Assistant Professor, Department of Geography hosted the event .
