To,

The Dean

University of Agricultural Sciences

Karekere

Hassan

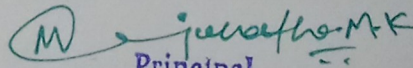

Respected Sir,

Subject: Request Letter for Educational Field Trip

As part of the chemistry syllabus of V semester (CBCS), Department of Chemistry planned for the field visit activities. The main purpose of this trip is to enhance the knowledge in interdisciplinary subjects. So, I request you to give us permission to visit laboratories of agricultural college. Therefore we request you to please allow us to visit your institute on 27th January 2022. Our 40 students and 2 teachers will accompany on the scheduled date to witness and record the field visit activity. Our students will surely be benefited and enlightened by your cooperation. Expecting positive and cooperative response from your side.

Thanking you

Yours sincerely

Principal

DEPARTMENT OF CHEMISTRY

Visit to Soil Chemistry Laboratory, Agriculture College

Date : 27th January 2023
Place of visit : Soil Chemistry Lab
Time : 11.30 a.m

As part of the departmental activity, on 27th January 2023 Department of Chemistry organized the soil chemistry laboratory visit for the 5th semester B.Sc students [CBZ]. Dr.B.N.Chandrashekar, Head of the Department, took the responsibility of the soil chemistry laboratory visit to the Agriculture College, Karekere, Hassan.

Totally 35 students took part in the field visit to understand the different physical and chemical parameters being tested in the soil and water in agricultural industry

The activity was prior scheduled with the help of the administration of SAFGC College and the management of the institution for the student centric activities of and successfully executed on 27th January 2022.

Dr. Chennakeshava, Scientist, Soil Chemistry, greeted and welcomed all on behalf of the organization and briefed us about the soil chemistry departmental activities carried out to the farming community and provided us with the highlights of the statistical data of the beneficiaries through various programs that were organized. The students were very keen to understand the opportunities in soil chemistry and acknowledged the importance of many governmental schemes to uplift the society for the progress of nation.

The session was taken over by Dr.Chennakeshava, Professor of Soil Chemistry, explained the students, the detailed procedure and the precautions to be taken while collecting the soil and water samples. The Students keenly observed the demonstration of testing various parameters of the soil and water testing. They were given the exposure to the following instruments, its principle, procedures and applications in this field Conductivity Meter, Digital Spectrophotometer, Titration Technique, Flame Photometer, Ph Meter, Rotary Shaker

After the completion of demonstration and explanation the session was open for queries and discussions, where the students got an opportunity to clarify their doubts regarding the process and they discussed the scope with an extended approach in an entrepreneur point of view.

With a thanking note and with a grateful heart the activity was concluded after posing for a group photograph
