Report on Field visit to Dhanavanthrivana and Natural farming, Becca

From the department of botany conducted field visit to the above said place on 30-06-2023. It is conducted for 6th semester (CBZ) students to see the medicinal plants, wild plants and natural farming. It is nearer to village Becca run by farmer Raghavendra. We started moving from our department at 10:15am along with 35 students headed by Ramaswamy K L and Sowmya C V.

In that farm we have observed many wild plants and medicinal plants like kadamba vruksha, shami, sita ashoca, hippali, sarpagandha, anjur, amruthnoni and others. Many wild plants are also observed in that region. He has grown many such plants along with coconut, banana, and many fruit yielding plants and ornamentals without removing the weed and without applying fertilizers or compost. Such a method of farming is called Pukuvuko technique.
