The Department of Library and Information Center and associated with AQAC, Sri Adichunchanagiri First Grade College, Channarayapatana organized National Library Week from 14th Nov 2021 to 20th at Library and Information Centre Reading Hall. Day 2:- 16th November 2021, Tuesday:- Human Library

The program was started with the invocation by the Shobhavathi, SDA, SAFGC. The formal welcome address was done by Dr. Nirupama M., HOD of Zoology SAFGC. On this occasion all teaching professionals, officers, staff, and students were present. Keynote address was given by Miss. Kavitha J.N., convener of the program, Librarian, SAFGC.

A library of human beings, the Human Library is a collection of people from all walks of life. Individuals serve as human “books” and participants can “read” the book by engaging in a conversation.

We are selected for two Human Library on this occasion, Dr. B.N. Chandrashekar, HOD of Chemistry and Ningaraju, HOD of English.

Dr. B.N. Chandrashekar, HOD of Chemistry he said “Am happy for considering me as one of the human library resource for the National Library Week, I believe that all individual are libraries., Example, when we write research articles or books we used to write our names with initials which represent your home town that also helps to come into spotlight and also inspire others too. Library helps me to succeed in my life. One research article / subject content made my brain realize or make so many plans. That equals thousands of books which contain information. As we are thirsty or hungry, our brain should also be ready to accept or store the content, and execute it in the right way. Though the computer is being designed to save memory in TB, it doesn't have to think in a creative way, but our brain can do in a smarter way to increase their memory or do many more innovations.

Or once the content is lost, it can't be resumed. But our memory does. That's the power of the human library. In general many students won't have the habit of studying at the library, but the teachers have those capabilities to reach the subject of interest to all students. One teacher will be a good book for hundreds of students in a closed room; finally students will be a photocopy of that teacher which can transfer the knowledge of that teacher into the society. . One Student group discussion - leads to bringing one book. That's the power of the human library.”

Ningaraju, HOD of English, said “He has explained his whole life story to the audience. How he has struggled in life, when he left home and ran to Bangalore without informing his Parents. He has searched for jobs and is not satisfied with the salary. He quit and got back to education and completed the Master Degree in English and graduated with a Bachelor of

Education. He has tried to clear the UPSC and gone to New Delhi for coaching but bad luck he has not cleared and come to here as a guest lecturer and become an assistant professor”.
