**CHANNRAYAPATTANA-573116
Seminar Chemistry Webinar**

Date: 03/12/2020

Proceedings of the National Level Seminar on "Chemistry in Multidisciplinary Research for a Sustainable Development" and "National Education Policy – 2020" held in SRI ADICHUNCHANAGIRI FIRST GRADE COLLEGE, CHANNARAYAPATANA on 1st December 2020

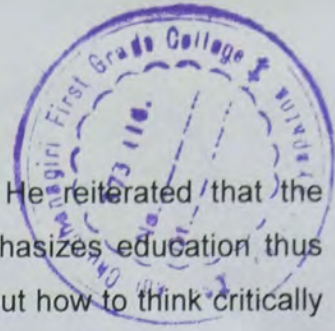

All guests arrived to the college campus at 10 am. We the faculties of the college received the guests and brought them to the Seminar hall.

For a few minutes later Seminar was started with the Nadageethe which was sung by Sri Rohan Iyar and Vedagosha delivered by Disciples of Sri Mutt. Later Smt. Kavyashree did the Invocation and paved the way for Welcome Address to Dr.N.Shankaresh, Principal, SAFG College. Initially, opening remarks of the National level conference was done by Principal of the college.

Followed by the welcome address, Seminar was inaugurated by Paramapoojya Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji - President, Sri Adichunchanagiri Mahasamsthana Mutt through lighting the lamp along with the presence of all guests who were present: Sri Sri. Shambunatha Swamiji (Secretary Sri Adichunchanagiri shikhana Trust; Hassan and Kodagu) , Prof. K.S Rangappa (Distinguished Professor, Former Vice-Chancellor- University of Mysore) , Prof. G. Hemantha Kumar (Honorable Vice-Chancellor, University of Mysore), Prof. S Srikantaswamy (Co-Ordinator, M.Tech in Material Science, Center for Materials Science and Technology Vijnana Bhavana, University of Mysore) and Dr. T V Somashekar (Professor, RIE, Manasagangothri, University of Mysore-Mysore)

Then the Chief Guest Prof. G. Hemantha Kumar, Honorable Vice Chancellor University of Mysore, Mysore addressed the gatherings on the recent policy made by

Principal
Sri Adichunchanagiri First Grade Collage
Channarayapatna-573 116

the central government "National Education Policy – 2020". He reiterated that the reforms in education content and pedagogy NEP – 2020 emphasizes education thus must move towards less content and more towards learning about how to think critically and solve problems, how to be creative and multidisciplinary and how to innovate, adopt and absorb new materials in novel and changing fields. Pedagogy must evolve to make education more experimental, holistic, integrated enquiry driven discovery oriented learner centered discussion based flexible and of course enjoyable.

With the main theme of national level seminar on "Chemistry in Multidisciplinary Research for a Sustainable Development" Prof. K.S Rangappa, Distinguished Professor, University of Mysore. In his keynote address he mentioned that the "Chemical Biology has become the integral part of drug discovery programme which is one of the most challenging and complex endeavors for academicians at Universities, Research Institutions and Pharma scientists. Chemical Biology is providing a huge platform for designing small molecules which can have high impact with specificity towards the target".

Ashirvachana was given by Paramapoojya Sri Sri Sri Nirmalanandanatha Mahaswamiji, President, Sri Adichunchanagiri Mahasamsthana Mutt conveyed that the Science & Technology and Spirituality will lead to the sustainable development through multidisciplinary approach. Swamiji saying that the significance of literature and science is crucial to enlighten the young minds of the present generation.

After that the conclusion of Mahaswamiji's ashirvachana, Dr.H.P.Shankar, Principal, SACCE thanked all the delegates, resource persons guests, research faculties and students of the college and all the gatherings.

Eventually after the lunch break, Technical session II was presided by Prof. S Srikantaswamy (speaker) including Dr. Shankaresh, Principal and Dr. B.N. Chandrashekar, Convenor and G.D. Narayan, Principal, Paduvalippe First Grade College.

As a resource person Prof. S Srikantaswamy, Co-Ordinator, M.Tech in Material Science Center for Materials Science And Technology, Vijnana Bhavana, University of Mysore delivered a plenary talk on - Current Trends in Nano Materials and their Applications. In his plenary talk, he said that there are several methods available to

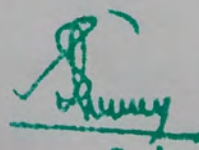

Principal

Sri Adichunchanagiri First Grade Collage
Channarayapatna-573 116

synthesized Nanomaterials among them hydrothermal is becoming popular in recent years because, it is environmentally benign and facilitates in situ surface modification with desired or tailor-made properties. Using in-situ surface modification, one can achieve the desired size, shape/morphology, properties for these metal oxides. Moreover, the synthesized materials are highly stable in the photo-catalytic process and non-toxic. Hence, the combination of high photo-catalytic stability, non-toxicity and efficient up-conversion properties in the synthesized material paves the way for its applications in photo-catalysis, energy conversion and in the biological field as well as environmental degradation.

In the Panel Discussion, as the theme of the seminar focused on multidisciplinary research, Prof. S Srikantaswamy urged to start the research center in the college and advised all the faculties of the department to involve in the research activities on the present scenario. Principal Dr. N. Shankarash said that we would bring this into the notice of the management and to begin the research center. With this suggestion all the faculties consented to be part of the research activities in the following days.

Finally, Dr.B.N.Chandrashekar, Faculty and Convenor of the Seminar SAFG College thanked all the delegates, faculty members, participants and students on behalf of the college and management.

Dear Professor S. Srikantaswamy,

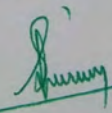

We here with wish to inform you that we are organizing webinar series on the theme of **"Chemistry in Multidisciplinary Research for a Sustainable Development"** to enlighten the faculties and the students through this event. During this special occasion, I am certain that, your topic entitled **"Current Trends in Nanomaterials and their Applications"** would inspire the scientific community in this event. I therefore invite you to deliver an invited talk for about 60 minutes during the webinar.

Presentation Date & Time: 1st December 2020: 3 PM to 4 PM

Venue: Sri Adichunchanagiri First Grade College, Channarayapatna.

Eagerly waiting for your participation in the webinar

Thanking you

"JAI SHREE GURUDEV"

Webinar Series on "Chemistry in Multidisciplinary Research for a Sustainable Development"

Topic : Metal and metal oxide nanocomposites for catalysis, biomedical and other applications

Biography :
Nagaraj Basavegowda completed his Bachelor's, Master's and Ph.D. in the University of Mysore, India. Currently he is an International Research Professor in Yeungnam University. In addition, he has over 8 years of Industrial experience. He has been teaching for B. tech, M. tech and Ph.D. students since 10 years. Apart from teaching, he is an avid researcher, especially in the areas of material science, synthesis of different metal and metal oxide nanoparticles for the application of catalysis, biomedical and food packaging and safety. He has published more than 65 scientific articles in different International Journals. Out of these 3 articles appeared in journal cover page. Currently, he is Editorial Board Member of some journals.

Conceptual DFT for voltammetric applications

Biography :
Dr. Gururaj Kudur Jayaprakash is working as an Assistant Professor at the School of Chemistry, Shoolini University. He has been awarded a CONACyT Ph.D. scholarship from the Govt of Mexico to pursue his doctoral degree from the GDL Quantum Chemistry group, Department of Material Science, University of Guadalajara, CUCEI, Guadalajara, Mexico. He has also got a postdoctoral scholarship from Tsinghua University for his postdoctoral studies at the Department of Chemistry, Tsinghua University, Beijing, PR China. He also worked as a project graduate trainee at the C.S.I.R. National Aerospace Laboratory, Bangalore, India. The main theme of his research group is voltammetric methods to analyze 2D materials for electronic and electrochemical applications.

Educational Qualification

B. Sc. - Chemistry, Botany, Zoology, 1996

M. Sc. - Bioscience, 1998

Ph. D. - Chemistry, 2007

Postdoctoral- Biotechnology, South Korea, 2013-Till date

Industrial Experience- 1999-2007, 8 years

Teaching Experience - 2008-2013, Assistant Professor in Dept. of Biotechnology, Shridevi Engineering College, Tumkur, for B.Tech. and M.Tech. 5 years

Teaching & Research Experience - School of Chemical Engineering, Yeungnam University, South Korea, 4 years

Field of Research - Nanobiotechnology & Chemical Engineering

Total Industrial Experience - 8 Years

Total Teaching & Research Experience - 13 Years

Total Publications - 65 in International Journals

Nagaraj Basavegowda is currently working as an International Research Professor in the Department of Biotechnology, Yeungnam University of South Korea, since last 8 years. He completed his Bachelor's, Master's and Ph.D. in the University of Mysore, India. Prior to his appointment as Research Professor from 2008 to 2013, he served as Assistant Professor in India. In addition, he has over 8 years of Industrial experience. He has been teaching for B. tech, M. tech and Ph.D. students since 10 years. Apart from teaching, he is an avid researcher, especially in the areas of material science, synthesis of different metal and metal oxide nanoparticles for the application of catalysis, biomedical and food packaging and safety. He has published more than 65 scientific articles in different International Journals. Out of these 3 articles appeared in journal cover page. Currently, he is Editorial Board Member of some journals. He also presented and attended in National and International conferences, Seminars and Workshops in various countries. He is a life member in various professional organizations. He has been invited as a speaker in various National and International conferences. He has been invited as a Visiting Lecturer and guest lecturer at a number of institutions.
